**Medical Information Requirements:**

For the upcoming school year, we have shifted all student medical information to an online protected database, Magnus Health SMR (Student Medical Records), which also shares with Sportsware the Sports Medicine Department’s Medical Portal. Parents will have access to Magnus Health SMR (Student Medical Record) early June 2022. To access your account, go to [www.malvernprep.org](http://www.malvernprep.org), click on MyMalvern (located on the bottom right of the introduction picture of the homepage) and log-in. Click on “Resources” and there will be a Magnus Health tile. Click on the tile to enter the portal. You will receive an email early June providing your username/password to access your son(s) Magnus Health SMR account(s). **All required information and forms are due by July 1, 2022!**

However, if there are items in the school's main database that were required for enrollment that are missing or need to be changed, this needs to be done first. Magnus Health syncs personal information via the "MyMalvern" contact card. If any biographical information (ex: phone number) in the schools database needs to be updated, please contact the following email address:

[dataprocessing@malvernprep.org](mailto:dataprocessing@malvernprep.org). Once it is updated in MyMalvern, the information will sync overnight to the Magnus Health SMR. This will allow parents to proceed with submitting health information and forms. Please refer to the linked letters for information about what and when information and forms are needed for Magnus Health SMR:
